TECHNICAL DATA SHEET

TANNIN REMOVER – 0721

A sodium perborate based powder which removes all tannin/tea and coffee stains from crockery and utensils.

❖ Can be made into a solution and added to the wash cycle

USES:

For the removal of all tannin/tea and coffee stains from crockery and utensils in all professional kitchens. May be diluted and added to the dishwasher wash cycle or for manual stain removal.

DIRECTIONS:

For manual stain removal add 115ml of product to 10 litres of warm water. Ensure powder is fully dissolved and leave utensils to soak for up to 2 hours.

For automatic dishwashers add 75ml to 115ml per load.

TECHNICAL SPECIFICATION:

Appearance	White powder
Odour	Characteristic
pH	Alkaline
Relative density	ca 1.2 g/l
