TECHNICAL DATA SHEET

BACTERICIDAL WASHING UP LIQUID – 09025

A high quality medium strength washing up liquid with excellent cleaning and foaming properties. Incorporates bactericides.

- ❖ Formulated to pass EN1276 challenge tests for bactericidal efficacy
- ❖ Excellent degreasing and cleaning power
- ❖ Bactericidal detergent has excellent foam stability
- ❖ Bactericidal reassurance for cracks and crevices

USES:

For the effective cleaning of cutlery and crockery.

DIRECTIONS:

Add to sink under running hot water. Good foam will result which should disappear when all Bactericidal Detergent has been utilised by the washing process, unless left for prolonged periods of time. Clean dishes and cutlery using a soft brush or cloth and allow to drain dry or wipe dry. Excessive soiling may require soaking for up to 10 minutes to aid cleaning.

Add 3 capfuls of Bactericidal Washing Up Liquid to 2.5 litres water or more if required to make a 'soapy water' solution. Wipe surface to be cleaned using a soft clean cloth, dry if necessary. The anti bacterial efficacy of a solution of Bactericidal Washing Up Liquid will increase significantly with increased wash water temperatures.

TECHNICAL SPECIFICATION:

Appearance	Thick liquid
Colour	Turquoise
Density	1.000
Shelf life	1 year

USAGE:

Dilute 1 part Bactericidal Washing Up Liquid with up to 200 parts water for a standard cleaning solution

Safety: Keep out of the reach of children.

If in eyes rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Seek medical attention if irritation persists.
