TECHNICAL DATA SHEET

ENVOMATIC DISHWASH DETERGENT HARD WATER – 0937

A highly alkaline, heavy duty machine detergent comprising a blend of organic sequestering agents and inhibitors to provide good soil suspension and dispersion.

- ❖ Excellent hard water tolerance and tannin control

USES:

For use in most types of enclosed cabinet dishwashers. Specially formulated for hard water. Removes soiling and stains.

DIRECTIONS:

Designed to be automatically dispensed by electronic control pumps.

Ensure glasses are free from any food particles before racking. Normally a dilution rate of 2 – 4 mls per litre of water depending on the level of soiling and water hardness.

For optimum results the wash cycle temperature should be in the range of 60C.

DO NOT USE ON ALUMINIUM, LEAD CRYSTAL OR HAND PAINTED CHINA. PROTECT FROM FROST.

TECHNICAL SPECIFICATION:

Appearance	Yellow liquid
Odour	Characteristic odour
pH conc solution	13.5
Water solubility	Fully soluble

Stable under normal conditions and recommended use. Avoid heat, direct sunlight, strong acids. Do not allow to freeze.

Safety: Keep locked up out of the reach of children.
