Cleaning and Hygiene Products That Don't Cost the Earth

TECHNICAL DATA SHEET

CONCRETE CLEANER - 1114

Acid concrete cleaner and descaler.

- ❖ Removes cement and plaster splashes – ideal for initial cleaning.
- ❖ Cleans and etches concrete floors, ensures effective 'key' for seal application.
- ❖ Removes industrial grime and stains from brick and stone exterior.
- ❖ Descales and derusts metals prior to painting.

USES:

For cleaning and descaling brick, stone and concrete, quarry tiles etc. and for metal derusting.

DIRECTIONS:

Initial clean and concrete etching – Dilute Concrete Cleaner 1 part to 4 parts water. Brush or spray. Allow to penetrate for 5 to 10 minutes then rinse. For stubborn deposits use neat. Descaling metal – Dilute Concrete Cleaner 1 part to 4 parts water. Brush on. Allow to descale, rinse, allow to dry. Paint or protect from corrosion immediately.

NB: 1. Do not use on or near linoleum floors, terrazzo, marble, acid sensitive stone, stainless steel, chrome or enamel.

2. Regular use on concrete will cause deterioration and is NOT recommended.

3. Descaled metal should be painted immediately to prevent rusting.

TECHNICAL SPECIFICATION:

Composition: An aqueous blend of hydrochloric acid, non-ionic surface active agents, a rust inhibitor and dye.

Appearance: Clear thin liquid

Colour: Red

Density: 1.1

pH: < 1

Fragrance: Acidic

Stability: Two years in unopened container.

Safety: Keep out of the reach of children.

In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Wear suitable protective clothing, gloves and eye/face protection. In case of accident or if you feel unwell, seek medical advice immediately and show the container or label. Do not breathe vapour/spray.

Causes burns.
