

#### The following Safety Datasheet is provided by Merton Group UK Ltd

Merton Group UK Ltd cannot be held liable for the information contained within this document.

# **SAFETY DATA SHEET**

1157 - Bona SuperSport Cleaner

### SECTION 1: Identification of the substance/mixture and of the company/ undertaking

#### 1.1 Product identifier

| Product name        | : 1157 - Bona SuperSport Cleaner 5ltr |
|---------------------|---------------------------------------|
| Product description | : Cleaner.                            |

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Identified uses** 

Not applicable.

Uses advised against Not applicable.

#### 1.3 Details of the supplier of the safety data sheet

Merton Group UK Ltd Unit 9 Foxholes Road off Golf Course Lane Leicester LE3 1TH Tel. 0116 231 4040

e-mail address of person : Environment@bona.com responsible for this SDS

#### National contact

Bona Limited 8 Thornton Chase, Linford Wood Milton Keynes, MK14 6FD Phone 01908 525150

#### 1.4 Emergency telephone number

Emergency telephone : 01235 239670 number

#### Supplier

| Telephone number        | : 0116 231 4040                |
|-------------------------|--------------------------------|
| Hours of operation      | : 9:00 - 17:00                 |
| Information limitations | : Information in English only! |

### **SECTION 2: Hazards identification**

### 2.1 Classification of the substance or mixture Product definition : Mixture <u>Classification according to UK CLP/GHS</u>

Eye Irrit. 2, H319

The product is classified as hazardous according to UK CLP Regulation SI 2019/720 as amended.

See Section 16 for the full text of the H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

#### 2.2 Label elements

1/13

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by UK REACH Regulation SI 2019/758 Bona SuperSport Cleaner

## **SECTION 2: Hazards identification**

| Hazard pictograms   |  |
|---|--|
| Signal word   | : Warning  |
| Hazard statements   | : Causes serious eye irritation.   |
| Precautionary statements  |  |
| Prevention  | : Wear eye or face protection. Wash hands thoroughly after handling.   |
| Response  | : IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| Storage   | : Not applicable.  |
| Disposal  | : Not applicable.  |
| Supplemental label<br>elements  | : Not applicable.  |
| Annex XVII - Restrictions<br>on the manufacture,<br>placing on the market and<br>use of certain dangerous<br>substances, mixtures and<br>articles | : Not applicable.  |
| Special packaging requirem  | ients  |
| Containers to be fitted<br>with child-resistant<br>fastenings   | : Not applicable.  |
| Tactile warning of danger   | : Not applicable.  |
| 2.3 Other hazards   |  |
| Product meets the criteria<br>for PBT or vPvB according<br>to Regulation (EC) No.<br>1907/2006, Annex XIII  | : This mixture does not contain any substances that are assessed to be a PBT or a vPvB.  |
| Other hazards which do  | : None known.  |

not result in classification

## **SECTION 3: Composition/information on ingredients**

| Product/ingredient name               | Identifiers                      | %    | Classification                         | Туре    |
|---------------------------------------|----------------------------------|------|--|---------|
| Oxirane, 2-methyl-, polymer with      | REACH #:                         | ≤5   | Acute Tox. 4, H302                     | [1]     |
| oxirane, monobutyl ether              | 02-2119630717-36                 |      |  |         |
|                                       | EC: 618-542-7<br>CAS: 9038-95-3  |      |  |         |
| 2-(2-butoxyethoxy)ethanol             | REACH #:                         | ≤3   | Eye Irrit. 2, H319                     | [1] [2] |
| _ (                                   | 01-2119475104-44                 |      | ,,                                     |         |
|                                       | EC: 203-961-6                    |      |  |         |
|                                       | CAS: 112-34-5                    |      |  |         |
| 2 phonosy (othernal                   | Index: 603-096-00-8              | <3   | Aguta Tay, 4, H202                     | [4]     |
| 2-phenoxyethanol                      | REACH #:<br>01-2119488943-21     | < 3  | Acute Tox. 4, H302<br>Eye Dam. 1, H318 | [1]     |
|                                       | EC: 204-589-7                    |      | STOT SE 3, H335                        |         |

|                                       | CAS: 3811-73-2                   | -0.1 | Aquatic Acute 1, H400                  |         |

| SECTION 3: Composition/information on ingredients |   |  |
|---|---|--|
|   | (M=100)<br>Aquatic Chronic 2,<br>H411   |  |
|   | See Section 16 for<br>the full text of the H<br>statements declared<br>above. |  |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

Type

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

Occupational exposure limits, if available, are listed in Section 8.

### **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

| Eye contact                | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.  |
|----------------------------|--|
| Inhalation                 | : Remove victim to fresh air and keep at rest in a position comfortable for breathing.<br>If not breathing, if breathing is irregular or if respiratory arrest occurs, provide<br>artificial respiration or oxygen by trained personnel. It may be dangerous to the<br>person providing aid to give mouth-to-mouth resuscitation. Get medical attention if<br>adverse health effects persist or are severe. If unconscious, place in recovery<br>position and get medical attention immediately. Maintain an open airway. Loosen<br>tight clothing such as a collar, tie, belt or waistband.   |
| Skin contact               | : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. Wash clothing before reuse. Clean shoes thoroughly before reuse.  |
| Ingestion                  | : Wash out mouth with water. Remove dentures if any. If material has been<br>swallowed and the exposed person is conscious, give small quantities of water to<br>drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not<br>induce vomiting unless directed to do so by medical personnel. If vomiting occurs,<br>the head should be kept low so that vomit does not enter the lungs. Get medical<br>attention if adverse health effects persist or are severe. Never give anything by<br>mouth to an unconscious person. If unconscious, place in recovery position and get<br>medical attention immediately. Maintain an open airway. Loosen tight clothing such<br>as a collar, tie, belt or waistband. |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.   |

#### 4.2 Most important symptoms and effects, both acute and delayed

#### **Over-exposure signs/symptoms**

| Eye contact  | : Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness |
|--------------|--|
| Inhalation   | : No specific data.  |
| Skin contact | : No specific data.  |
| Ingestion    | : No specific data.  |

| 4.3 Indication of any in | nmediate medical attention and special treatment needed   |
|--------------------------|---|
| Notes to physician       | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large<br/>quantities have been ingested or inhaled.</li> </ul> |
| Specific treatments      | : No specific treatment.  |

## **SECTION 5: Firefighting measures**

| _                                     | -   |
|---------------------------------------|---|
| 5.1 Extinguishing media               |   |
| Suitable extinguishing media          | : Use an extinguishing agent suitable for the surrounding fire.   |
| Unsuitable extinguishing media        | : None known.   |
| 5.2 Special hazards arising           | rom the substance or mixture  |
| Hazards from the substance or mixture | : In a fire or if heated, a pressure increase will occur and the container may burst.   |
| Hazardous combustion products         | : Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide<br>sulfur oxides<br>metal oxide/oxides |

| 5.3 Advice for firefighters                    |   |   |
|--|---|---|
| Special protective actions for fire-fighters   | - | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
| Special protective equipment for fire-fighters | 1 | Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.                         |

### **SECTION 6: Accidental release measures**

| 6.1 Personal precautions, pro   | ote | ctive equipment and emergency procedures  |
|---------------------------------|-----|---|
| For non-emergency<br>personnel  | :   | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilt material. Avoid breathing vapour or<br>mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment.   |
| For emergency responders        | -   | If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".   |
| 6.2 Environmental precautions   | :   | Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains<br>and sewers. Inform the relevant authorities if the product has caused environmental<br>pollution (sewers, waterways, soil or air).   |
| 6.3 Methods and material for    | СС  | entainment and cleaning up  |
| Small spill                     | :   | Stop leak if without risk. Move containers from spill area. Dilute with water and mop<br>up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry<br>material and place in an appropriate waste disposal container. Dispose of via a<br>licensed waste disposal contractor.  |
| Large spill                     | :   | Stop leak if without risk. Move containers from spill area. Approach the release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilt product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |
| 6.4 Reference to other sections | :   | See Section 1 for emergency contact information.<br>See Section 8 for information on appropriate personal protective equipment.<br>See Section 13 for additional waste treatment information.   |
| Date of issue/Date of revision  |     | : 11/16/2022 Date of previous issue : No previous validation Version : 1 4/13   |

### **SECTION 7: Handling and storage**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 7.1 Precautions for safe handling

| Protective measures                    | : | Put on appropriate personal protective equipment (see Section 8). Do not ingest.<br>Avoid contact with eyes, skin and clothing. Avoid breathing vapour or mist. Keep in<br>the original container or an approved alternative made from a compatible material,<br>kept tightly closed when not in use. Empty containers retain product residue and<br>can be hazardous. Do not reuse container. |
|--|---|--|
| Advice on general occupational hygiene | : | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.  |

#### 7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

| 7.3 Specific end use(s)              |                  |
|--------------------------------------|------------------|
| Recommendations                      | : Not available. |
| Industrial sector specific solutions | : Not available. |

### **SECTION 8: Exposure controls/personal protection**

#### 8.1 Control parameters

#### **Occupational exposure limits**

| Product/ingredient name   | Exposure limit values  |
|---------------------------|--|
| 2-(2-butoxyethoxy)ethanol | EH40/2005 WELs (United Kingdom (UK), 1/2020).<br>TWA: 10 ppm 8 hours.<br>STEL: 15 ppm 15 minutes.<br>TWA: 67.5 mg/m <sup>3</sup> 8 hours.<br>STEL: 101.2 mg/m <sup>3</sup> 15 minutes. |

#### **Biological exposure indices**

No exposure indices known.

**Recommended monitoring** : Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

#### **DNELs/DMELs**

| Product/ingredient name   | Туре | Exposure                 | Value                  | Population                           | Effects  |
|---------------------------|------|--------------------------|------------------------|--------------------------------------|----------|
| 2-(2-butoxyethoxy)ethanol | DNEL | Short term<br>Inhalation | 67.5 mg/m <sup>3</sup> | Workers                              | Local    |
|                           | DNEL | Long term Dermal         | 20 mg/kg<br>bw/day     | Workers                              | Systemic |
|                           | DNEL | Short term<br>Inhalation | 50.5 mg/m³             | General<br>population<br>[Consumers] | Local    |
|                           | DNEL | Long term Dermal         | 10 mg/kg<br>bw/day     | General<br>population<br>[Consumers] | Systemic |
|                           | DNEL | Long term<br>Inhalation  | 34 mg/m <sup>3</sup>   | General<br>population<br>[Consumers] | Systemic |
|                           | DNEL | Long term Oral           | 1.25 mg/               | General                              | Systemic |

## SECTION 8: Exposure controls/personal protection

| ECTION 8: Exposure controls/personal protection |      |                          |                        |                           |          |  |  |
|---|------|--------------------------|------------------------|---------------------------|----------|--|--|
|   |      |                          | kg bw/day              | population<br>[Consumers] |          |  |  |
|   | DNEL | Long term Oral           | 6.25 mg/<br>kg bw/day  | General population        | Systemic |  |  |
|   | DNEL | Long term<br>Inhalation  | 67.5 mg/m³             |                           | Local    |  |  |
|   | DNEL | Short term<br>Inhalation | 101.2 mg/<br>m³        | Workers                   | Local    |  |  |
| 2-phenoxyethanol                                | DNEL | Long term<br>Inhalation  | 2.41 mg/m <sup>3</sup> | General<br>population     | Local    |  |  |
|   | DNEL | Long term<br>Inhalation  | 2.41 mg/m <sup>3</sup> | General population        | Systemic |  |  |
|   | DNEL | Long term<br>Inhalation  | 5.7 mg/m³              | Workers                   | Local    |  |  |
|   | DNEL | Long term<br>Inhalation  | 5.7 mg/m³              | Workers                   | Systemic |  |  |
|   | DNEL | Short term Oral          | 9.23 mg/<br>kg bw/day  | General<br>population     | Systemic |  |  |
|   | DNEL | Long term Oral           | 9.23 mg/<br>kg bw/day  | General<br>population     | Systemic |  |  |
|   | DNEL | Long term Dermal         | 10.42 mg/<br>kg bw/day | General<br>population     | Systemic |  |  |
|   | DNEL | Long term Dermal         | 20.83 mg/<br>kg bw/day | Workers                   | Systemic |  |  |

#### **PNECs**

No PNECs available

| 8.2 Exposure controls               |   |
|-------------------------------------|---|
| Appropriate engineering<br>controls | : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.  |
| Individual protection meas          | ures  |
| Hygiene measures                    | : Wash hands, forearms and face thoroughly after handling chemical products,<br>before eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Wash contaminated clothing before reusing. Ensure that eyewash stations and<br>safety showers are close to the workstation location.   |
| Eye/face protection                 | : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.  |
| Skin protection                     |   |
| Hand protection                     | : Chemical-resistant, impervious gloves complying with an approved standard should<br>be worn at all times when handling chemical products if a risk assessment indicates<br>this is necessary. Considering the parameters specified by the glove manufacturer,<br>check during use that the gloves are still retaining their protective properties. It<br>should be noted that the time to breakthrough for any glove material may be<br>different for different glove manufacturers. In the case of mixtures, consisting of<br>several substances, the protection time of the gloves cannot be accurately<br>estimated. > 8 hours (breakthrough time): nitrile rubber |
| Body protection                     | : Personal protective equipment for the body should be selected based on the task<br>being performed and the risks involved and should be approved by a specialist<br>before handling this product. Recommended: Personal protective equipment for<br>the body should be selected based on the task being performed and the risks<br>involved and should be approved by a specialist before handling this product.  |
| Other skin protection               | : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.   |

### **SECTION 8: Exposure controls/personal protection**

| Respiratory protection          | : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.  |
|---------------------------------|---|
| Environmental exposure controls | : Emissions from ventilation or work process equipment should be checked to<br>ensure they comply with the requirements of environmental protection legislation.<br>In some cases, fume scrubbers, filters or engineering modifications to the process<br>equipment will be necessary to reduce emissions to acceptable levels. |

### **SECTION 9: Physical and chemical properties**

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

| Product/ingredient name   | Aquatic half-life | Photolysis | Biodegradability |
| Oxirane, 2-methyl-, polymer<br>with oxirane, monobutyl<br>ether | -                 | -          | Readily          |

#### **12.3 Bioaccumulative potential**

| Product/ingredient name   | LogP <sub>ow</sub> | BCF    | Potential |
|---------------------------|--------------------|--------|-----------|
| 2-(2-butoxyethoxy)ethanol | 1                  | -      | low       |
| 2-phenoxyethanol          | 1.107              | 0.3493 | low       |

| 12.4 Mobility in soil |                  |
|-----------------------|------------------|
| Soil/water partition  | : Not available. |
| coefficient (Koc)     |                  |
| Mobility              | : Not available. |

#### 12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

: No known significant effects or critical hazards. **12.6 Other adverse effects** 

### SECTION 13: Disposal considerations

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 13.1 Waste treatment methods

**Product** 

| Methods of disposal | : The generation of waste should be avoided or minimised wherever possible.<br>Disposal of this product, solutions and any by-products should at all times comply<br>with the requirements of environmental protection and waste disposal legislation and<br>any regional local authority requirements. Dispose of surplus and non-recyclable<br>products via a licensed waste disposal contractor. Waste should not be disposed of<br>untreated to the sewer unless fully compliant with the requirements of all authorities<br>with jurisdiction. |
|---------------------|---|
| Hazardous waste     | : Yes.  |
| Waste catalogue     |   |
| Waste code          | Waste designation   |
| 20 01 29*           | detergents containing hazardous substances  |
| Special precautions | : This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.   |

### **SECTION 14: Transport information**
